Self-Bunded AdBlue TANKS

Designed for the demands of AdBlue storage, FES AdBlue Tanks provide a secure, compliant, and durable solution for modern diesel fleets. Combining F.E.S. Tanks' proven self-bunded design with built-in protection against contamination and costly downtime, they ensure product integrity and reliability

3,000L – 5,000L – 10,000L

Protecting Your Fleet with the Right Storage

Improper storage can degrade AdBlue and damage SCR systems. FES tanks are engineered to:

- Protect against heat, sunlight & evaporation
- Keep out water & particulates
- Ensure environmental compliance
- Maximise shelf life and performance

Standard Inclusions

 Self-bunded design with lockable pump bay

 304 Stainless steel internal AdBlue tank

 Mechanical overfill protection valve

 Removable lid for easy maintenance

 Forklift pockets & tie-down lugs for relocation

Dimensions and volumes are nominal only. Alternative capacities available upon request.

BULK DEF TANK SPECIFICATIONS

| MODEL | SFL Litres | CAPACITY Litres | LENGTH mm | WIDTH mm | HEIGHT mm | TARE kg |
|-----------|------------|-----------------|-----------|----------|-----------|---------|
| DEF 3000 | 3,000 | 3,160 | 2,572 | 1,129 | 2,565 | 1,798 |
| DEF 5000 | 5,000 | 5,275 | 4,053 | 1,139 | 2,548 | 2,360 |
| DEF 10000 | 11,500 | 12,105 | 3,960 | 2,274 | 2,504 | 3,302 |
